

# TRITON SUPPLEMENTS Trace Elements

## IRON (Fe)

### What is it? What is it for?

Iron is a Trace element shown to be beneficial for metabolic processes in reef aquaria.

Promotes macro algae growth and health/colour of LPS/SPS coral.

### Skill Level

This product is classified as Intermediate Skill Level

### Important notes for usage

Iron if dosed incorrectly can be dangerous to your system inhabitants.

Dosage of Iron should only be attempted by experienced users

### How do I use Iron?

Caution should be exercised when dosing Iron.

Dose 1ml per 500L and test with ICP-OES regularly, if Iron exceeds the set point in ICP-OES analysis stop dosing immediately.

Dose can be increased to a maximum of three times using the same procedure of 1ml per 500L and regular ICP-OES testing.

### Other additional information

Care should be taken not to carry out too many adjustments at the same time because of the risk of elements reacting with one another.

Dose into an area of high flow.

Leave 5 minutes between different element adjustments

Any large swings in element levels can be detrimental to your tank inhabitants.
